<b>Basic information about the event</b>	Circular economy, sustainable development, smart cities, renewables, zero-emission companies, recycling, waste management,..., these issues are growing in importance and becoming part of our everyday lives, both professional and private. The B2B trade fair VODA AQUA has proven the need for broader coverage of topics related to ecology, that is why in 2020 we upgraded the contents of the event. As the only specialized event in the region (Slovenia, Croatia and the wider region) that comprehensively addresses environmental technologies Eco Wave showcases the latest products, pioneer technologies and innovations in the fields of water technology; waste management and recycling; hydropower, solar and wind energy, biomass; air quality, soil decontamination and environmental technologies.		
<b>Profile of exhibitors</b>	<b>Exhibitors</b> are manufacturers, official importers and distributors of products, equipment, machines, accessories and tools used in the above-mentioned sectors; service providers, research organizations, educational institutions, publishers, associations, others.		
<b>Profile of visitors</b>	<b>Visitors</b> of ECO WAVE are executives responsible for strategic planning and purchasing; government officials, industry experts and researchers, technicians, as well as undergraduate and postgraduate students.
